ADDITIONAL INFORMATION

Reimbursement of capital before annuity payments begin

At death: Reimbursement of the premium paid increased by 2% interest.
Upon surrender: Reimbursement of 95% of the premium paid increased by 2% interest, adjusted in order to take interest rate fluctuation into account.

Benefit after annuity payments begin

Annuity: The annuity will be paid during the annuitant's lifetime with a minimum of 60 payments.
Death: At the annuitant's death, the Company will continue to make payments to the spouse for the duration of the guaranteed period. If there is no spouse, an amount equal to the current value of the remaining payments to be made until the end of the guaranteed period will be paid to the designated beneficiary(ies).

Rate guarantee and responsibility

The annuity purchase rate is guaranteed for sixty (60) days, under the condition that the illustration, the application and any documents required to process the request are received by the Company within two business days following the date that appears at the bottom of this page. However, the annuity shown in the illustration is not guaranteed. The guaranteed rate is the rate that will be applied to the purchase of an annuity, regardless of rate fluctuations during the sixty (60) day period. The premium must be received within sixty (60) days.

Even though all efforts are made to ensure the quality of the illustration or its use, the figures used in the illustration, particularly costs and/or premiums, are subject to approval by the Company.
