Immediate annuity contract is non-redeemable.

The table code used by your advisor is the following : ADCCHA2E

**Important:** If your client owns a non registered Savings Annuity contract with the Insurer, the first annuity payment must be made at the latest on December 31 following the next contract anniversary in order to maintain the prescribed annuity status. If this rule is not complied with, the date of the first payment will have to be moved forward in the current calendar year and the annuity payment reduced as a result.
