Manulife Investments Annuities can assist with your income needs through guaranteed payments for the rest of your life or for a specific period of time. An annuity from Manulife Investments can form an important part of your income portfolio by taking the guesswork out of investing for income.

WHAT IS AN ANNUITY?

For those who want guaranteed income, annuities are a popular choice. In exchange for a single lump sum investment, an insurer makes guaranteed regular income payments to an investor that contain both interest and a return of capital.

In addition, annuity payments aren't affected by market volatility or fluctuations in interest rates. They can offer protection against inflation through indexing, which provides yearly payment increases. They're also a potential source of tax-efficient income because only a portion of an annuity payment is taxable.

Best of all, annuities are simple. It's a one-time purchase with no on-going investment decisions to be made. Annuities are perfect for investors who are not interested in managing investments as they age.

The amount of income provided through an annuity is generally determined by the:

- Type of annuity selected
- Amount of money invested
- Current interest rates
- Age
- Sex
- Payment guarantee selected

TYPES OF ANNUITIES

A **Single Life Annuity** provides an income as long as the annuitant is living.

A **Joint and Survivor Life Annuity** provides an income for the lifetime of two individuals - a primary annuitant and a secondary annuitant (usually a husband and wife). Upon the death of one annuitant, the surviving annuitant can continue to receive an income.

A **Term Certain Annuity** provides guaranteed income for a specified period of time.

ADVANTAGES OF A MANULIFE ANNUITY

GUARANTEE OPTIONS

Return of Premium - This option can guarantee a return of the original premium (with or without interest, as selected at the time of application) if the annuitant(s) pass away before the first payment date. A return of premium guarantee is automatically included in annuity quotes for registered money or quotes that include principal protection.

Guarantee Period - If a guarantee period is chosen, payments are guaranteed to be paid for the selected period. If all annuitants should pass away after payments have started and before the end of the chosen guarantee period, then remaining guaranteed payments may continue to a beneficiary.*

Principal protection - This option (also known as a cash refund guarantee) ensures that, in the event that all annuitants pass away on or after the payment start date, a beneficiary will receive a lump sum payment. This lump sum payment is equal to the difference between the total payments made by us and the original investment. Selecting principal protection provides you with the Manulife Principal Protected Annuity™.

PAYMENT FREQUENCY

Choose from monthly, quarterly, semi-annual or annual payments on any annuity type (subject to minimum payment amounts).

TAX ADVANTAGES

Many non-registered annuities may meet specific Income Tax Act (Canada) requirements and can qualify for "Prescribed" taxation. Prescribed Annuities offer

tax advantages, including level taxation throughout the duration of the contract. Non-prescribed annuity taxation is higher in the early years and decreases over time as principal is reduced. With prescribed taxation, the recipient receives an element of tax deferral and also pays less tax over the life of the contract.

Further, for those 65 or older, income from an annuity will qualify for the pension income tax credit and pension income splitting, which offer additional tax relief.

INFLATION PROTECTION

To help guard against the effects of inflation, annuities can be purchased with an annual percentage increase in income.
