## The annuity advantage

---

An annuity gives you a guaranteed, regular retirement income for the rest of your life (or another fixed period of time), in exchange for an initial amount of money. This initial amount is also called a premium.

An annuity is a hands-off solution to make sure you have retirement income.

### How you can customize your annuity

You can tailor your annuity to meet your unique needs and financial goals. Here are a few ways you can personalize your annuity.

- Your annuity can make up for increased living costs caused by inflation.
  - You can make sure there's money left over to help take care of your loved ones after you're gone or to make a charitable donation to cause that's important to you.
  - You can make your annuity income start date flexible, so income payments begin when it's best for you.
  - You can add an option that may increase your income payments if rates go up in the months following your purchase.
  - If health problems mean you face a shorter life expectancy, you could receive higher income payments. The income payments don't decrease even if medical advances improve your life expectancy.
