Annuity disclosures

To be issued with an income annuity based on this quote, you must meet the conditions listed below:

- All information you provided is accurate and results in a quote that complies with any applicable legislation.
- Head office receives the application by 8 p.m. ET, one business day following the date this quote was prepared. Head office receives the full premium by the required date that's indicated on the application.
- Cumulative premiums for any other income annuity for the same annuitant don't exceed our administrative limits.

Income payment amounts are payable in Canadian currency and are paid by direct deposit.

Where applicable, the annual taxable amounts shown are based on the type of annuity selected and our interpretation of the current Income Tax Act. This may be subject to change.

The following apply based on the selections you made.

We make every effort to ensure this income annuity quote is accurate; however, we reserve the right to correct any errors and omissions. The features and options in this quote are fully described in your policy.

The annuity advantage

An annuity gives you a guaranteed, regular retirement income for the rest of your life (or another fixed period of time), in exchange for an initial amount of money. This initial amount is also called a premium.

An annuity is a hands-off solution to make sure you have retirement income.

How you can customize your annuity

You can tailor your annuity to meet your unique needs and financial goals. Here are a few ways you can personalize your annuity.

- Your annuity can make up for increased living costs caused by inflation.
 - You can make sure there's money left over to help take care of your loved ones after you're gone or to make a charitable donation to cause that's important to you.
 - You can make your annuity income start date flexible, so income payments begin when it's best for you.
 - You can add an option that may increase your income payments if rates go up in the months following your purchase.
 - If health problems mean you face a shorter life expectancy, you could receive higher income payments. The income payments don't decrease even if medical advances improve your life expectancy.
-
